COMPANY PROFILE

Al Jazirah Industrial Projects General Trading & Contracting Co. W.L.L (JIP) is a prominent company, involved in detailed engineering and construction works related to Civil, Mechanical, Electrical, Instrumentation, Insulation, Fireproofing, Refractory and Scaffolding Work for oil & gas, industrial and commercial sectors of the business in Kuwait.

JIP has executed the major projects for Kuwait Oil Company (KOC), Kuwait National Petroleum Company (KNPC), Kuwait Integrated Petroleum Industries Company (KIPIC), Petroleum Industries Company (PIC), Kuwait Cement Co., Kuwait Steel Co. and other Ministry Projects in Kuwait with EPC Contractors such as Petrofac International Limited, Larsen & Toubro Limited, Sinopec, Dodsai Limited, Honeywell etc.

Moreover, the company has been accredited with ISO 9001:2015, ISO 14001:2015 and ISO 45001: 2018 Management System.

VISION, MISSION & VALUES

VISION

To become a preferred Company to all customers for the reliable, trustworthy, efficient construction and maintenance services with the expertise and resources for timely completion of projects with high degree of Safety, Quality and Standards.

MISSION

To meet the customer's expectation, by providing complete and value-added construction services in competitive prices with the highest degree of safety, quality & standards at all times. To enhance the business by providing a conducive environment to attract high caliber professionals and achieve sustainable growth rate with the operational excellence.

VALUES

Every aspect of our business is characterized by professionalism and high standards under our organizational setup. Sustainability is embedded into our long-term strategy for growth with the following strengths.

- Teamwork
- Commitment
- Health & Safety
- Relationship
- Flexibility
- Quality

QUALITY POLICY

Al – Jazirah Industrial Projects General Trading & Contracting Co.

QUALITY POLICY

Al – Jazirah Industrial Projects is a client driven organization that is committed to ensure the highest quality services to meet its client's needs through greater coordination, increased productivity and continuous improvement of the integrated management system.

For this purpose, Al – Jazirah Industrial Projects aims at:

- Meeting the expectations of the client by ensuring complete compliance to contractual obligations and fostering healthy client relations.
- Creating a work culture that simulates, involves and integrates the work force at all levels for continuous improvement and innovation in every functional area by providing appropriate training at all levels in the company.
- Undertaking appropriate reviews and evaluations to measure quality assurance performances against identified objectives and targets, while ensuring the compliance with this policy.
- Complying with all applicable local or international laws and regulations.

Al – Jazirah Industrial Projects will continually seek to improve the effectiveness of its integrated management system, conforming to the requirements of ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 to provide greater client satisfaction and drive excellence. The quality policy will regularly be increase the awareness among employees.

For Al – Jazirah Industrial Projects.

HSE POLICY

Al – Jazirah Industrial Projects General Trading & Contracting Co.

HEALTH, SAFETY & ENVIRONMENT POLICY

Al – Jazirah Industrial Projects considers HSE as one of the main priorities in the company. Directors and Employees believe that no part of its business objectives can be carried out effectively and successfully if not performed safety, therefore; the prevention of accidents and incidents, either related to personnel injury/property damage and/or loss of company assets/pollution generation reduction and preservation of natural resources should be considered as a high priority.

For this purpose, Al – Jazirah Industrial Projects is committed to:

- Conducting specific and realistic day to day operational measures to protect its personnel and any other related party/partner.
- Promoting, integrating and maintaining HSE Aspects in all company operation. Apply reduce, reuse & recycle methodology during the waste generation in order to prevent adverse environment impacts.
- JIP's Top Management should guarantee to meet the required standard of Health Safety & Environment performance in compliance with Kuwait Laws/Legal and international requirements, ISO 45001:2018, ISO 14001:2015, ISO 9001:2015 and Client guidelines.
- JIP's Top management should ensure that all the sub-contractors are ready to commit to the company's HSE requirements and procedures in order to support a safe work environment.

The continual improvement and implementation of the HSE Policy, Objective and procedures will be periodically monitored, reviewed, updated & communicated all persons working under our control to ensure that standards are being maintained.

This HSE Policy will be made available to any interested party upon request.

For Al Jazirah Industrial Projects.

CORE CONSTRUCTION ACTIVITIES

OUR RANGE OF SERVICES

Al Jazirah Industrial Projects General Trading & Contracting Co. W.L.L (JIP) is involved in detailed engineering, procurement and construction Works with a diversified range of business in Oil and Gas, Petrochemicals, Cement Industry, Steel Industry, Power Sectors associated with Civil, Mechanical, Electrical, Instrumentation, Fibre Optics, Telecommunication and Maintenance Services in Kuwait. JIP is committed to complete the projects with the highest level of safety, quality and productivity.

JIP is being recognized as one of the leading industrial companies in Kuwait having made a major contribution to the development of the country's commercial and industrial sectors with the reputation for standards of excellence in the quality, performance and customer service. JIP's highly experienced and dedicated engineers undertake all engineering activities from the construction to commissioning Works related to the following operations with a very high level of professionalism.

CIVIL & STRUCTURAL WORKS

JIP's Civil Division is capable to execute all kind of civil & structural works in oil & gas, commercial and infrastructural projects such as earthworks, equipment foundations, industrial building construction (Substation, Control Building & Administration Building), warehouses, culverts, pipe racks, infrastructure, road and pavements. Civil Division has successfully executed several types of projects for government and private sectors under EPC Contractors (local & International) complying with National Engineering and International Engineering Standards.

MECHANICAL CONSTRUCTION & MAINTENANCE WORKS

JIP's Mechanical Division deals with various aspects of the new project construction & maintenance Works for Oil & Gas, Petrochemical, Industrial and Commercial Sectors. JIP is fully equipped and supported with the company owned equipment, machinery, vehicles, tools & tackles and other construction aids for the execution of various mechanical works. JIP's Mechanical Division has successfully completed several projects such as installation of static and rotating equipment, plant piping, off site piping, laying of below ground and above ground piping, pipeline, FRP & GRP piping and flow lines for crude oil services, erection of oil storage tanks and associated works.

Apart from the above, JIP also execute annual maintenance contract works for various industrial plants associated with the mechanical, piping, insulation & refractory works including shutdown works.

ELECTRICAL & INSTRUMENTATION WORKS

JIP's Electrical & Instrumentation Division deals with various aspects of the new project construction & maintenance Works for Oil & Gas, Petrochemical, Industrial and Commercial Sectors. JIP is well versed, experienced and equipped to handle all types of E&I Works such as Installation of electrical equipment, switchgears, industrial lighting, installation of electrical control, power cabling, installation of the instrumentation and control system. Major cabling works at project sites for the new and existing plants involved with the hydro carbon and hazardous chemical environments for the oil field Gathering Centres, Refinery and Petrochemicals. JIP's team has carried out several E & I Works such as HT and LT cable laying, terminations, cable jointing up to and

including 11 Kv, Installations of HT and LT Motors, Switchgears, MCC's PCC'S and C&R Panels. Installation of Substation Works including transformers, OCB and VCB's installation, termination and testing of multi pair telephone and Fibre Optic Cables (FOC), laying of PVC and GI pipes, installation of cabinets, marshalling panels, installation, calibration and loop testing of all types of Instrumentation and Control Systems etc. These works have been executed in Government and Private Sectors of the industries under EPC Companies (local and multi-national) complying with Company Specifications and as per other Codes and Standards.

INSULATION, FIRE PROOFING & PAINTING DIVISION.

JIP is one amongst the preferred contractors in providing all kinds of Coating Services in Oil and Gas Sector Projects. JIP is proud of the long and successful track record for spool based onshore and offshore coating activities including the onshore pipeline construction works. JIP has been associated with all the major pipeline contractors to provide onshore and offshore services with regard to Insulation, fire proofing, & painting services and has earned a reputation for maintaining the high quality, performance with reliability in these services.

REFRACTORY DIVISION.

JIP has been continuously engaged in Refractory Works with Customers like Kuwait Oil Company (KOC), Kuwait Cement Company (KCC), Petro Coke Industries Corporation (PCIC) and Kuwait Steel Company. JIP has specialized pool of manpower and equipment for the Refractory Works. JIP has

executed various projects for New Refractory Installation & Castable, Refractory Replacement Works including Dry-out process.

SCAFFOLDING SALES, RENTAL & SERVICES DIVISION.

JIP's Scaffolding Sale & Rental division uses quality material as per the specification of KNPC and KOC which are produced at par with the latest technological advancements according to International Design Standards. Scaffolding sales & rentals are customized as per Customer's Specifications to provide the rental service, sales and supply. JIP has wide range of Scaffolding materials maintaining the quantity of one million CuM scaffolds which can be used for construction and maintenance Works for both commercial buildings and industrial projects.

JIP's scaffolding crews are certified and experienced in a wide range of scaffolding installations. JIP's scaffolding erection specialists efficiently install and dismantle the scaffoldings to the highest safety standards and protocols. Having used specialized scaffolding crews, below stated benefits can be achieved:

- Scaffolding erected by JIP Scaffolding crew is complying with OSHA requirements.
- JIP scaffolding specialists can reduce the customer's setup/ breakdown time to fit tight schedules.
- JIP scaffolding crew free up the customer's trade people to practice their craft.
- JIP secured work platforms increases Safety and Productivity.
